

ABEL ZELEKE

FULL-STACK WEB DEVELOPER & GIS SPECIALIST

Email: abelzeleke0949@gmail.com Phone: (+251) 949 981 512 Location: Addis Ababa, Ethiopia
Passport: E00172894

PROFESSIONAL PROFILE

A versatile and solution-oriented professional combining hands-on expertise in full-stack web development with a strong academic background in Geographic Information Science (GIS). Adept at building responsive, data-driven web applications using modern JavaScript frameworks while leveraging spatial data modeling and satellite imagery analysis to deliver impactful, cross-disciplinary digital solutions.

TECHNICAL SKILLS

Web Development Expert

- Frontend:** React, Next.js, Tailwind CSS, JavaScript (ES6+), HTML5, CSS3
- Backend & Database:** Node.js, Express.js, MongoDB, RESTful APIs
- Tools & Workflows:** Git/GitHub, Agile Development, UI/UX Component Design

GIS & Remote Sensing Expert

- GIS Software:** ArcGIS / ArcMap, QGIS, Web Mapping, PostGIS
- Remote Sensing:** ERDAS Imagine, ENVI, Google Earth Engine
- Analysis:** Spatial Modeling, Land Cover Classification, Watershed Analysis

WEB DEVELOPMENT & SOFTWARE PROJECTS

Full-Stack Developer / "Gulit Gebeya" E-Commerce Platform

May 2026

- Collaborated in a development team to architect and build a functional e-commerce MVP.
- Designed and implemented responsive user interfaces, key page routes, and dynamic UI components utilizing React and Tailwind CSS.
- Integrated frontend layers with scalable Node.js backend services to ensure a fluid user experience.

Full-Stack Developer / Student Attendance Tracking System

2025 - Present

- Engineered a comprehensive, secure Student Attendance Tracking System featuring structured data persistence with MongoDB.
- Developed a modern, modular dashboard UI layout designed for ease of administrative navigation and real-time record updates.
- Implemented efficient backend API schemas using Node.js to handle secure record collection and query requests.

GEOSPATIAL & GIS EXPERIENCE

Lead Spatial Analyst / Solid Waste Disposal Site Suitability

2024 - 2025

- Executed multi-criteria decision analysis (MCDA) for solid waste disposal site selection across urban regions (Bahir Dar).
- Integrated satellite imagery, land-use maps, and environmental constraints using ArcGIS and Python scripts to deliver actionable decision-support layouts.

GIS & Remote Sensing Specialist / Urban Landscape & Watershed Analysis

2023 - 2024

- Applied weighted overlay methodologies and spatial modeling within QGIS and ArcGIS to determine optimal expansion corridors for sustainable urban growth.
- Processed high-resolution imagery using ERDAS/ENVI for land cover classification, and performed hydrological drainage network delineations.

EDUCATION & CERTIFICATIONS

BSc in Geographic Information Science / Hawassa University

Sep 2021 - Jun 2025

- CGPA:** 3.46 (EQF Level 6) | **Languages:** Amharic (Native), English (Professional)
